How Adding a Guest Affects Your Total Price

Let us talk money. Adding a guest changes your cruise fare in three ways. First, you pay the current per-person rate for the new guest. That rate could be higher or lower than what you originally paid. Second, port taxes and fees increase per

head. Third, prepaid gratuities and drink packages must be added for the new person. However, there is good news. Many third and fourth guests sail at deep discounts. Some promotions even offer free fares for kids. To find out exactly what you will pay, you should **Add Guest In Norwegian Cruise Line Dial +1 (833) 624 0944** and request a price breakdown. Secure your cruise update 🚢 **+1 (833) 624 0944** before promotional pricing ends. One family added their grandmother two weeks before sailing. They paid only $199 plus taxes because of a limited-time offer. That deal would have expired if they waited.

You also need the new guest's date of birth, emergency contact, and loyalty program number if applicable. When you **Add Guest In Norwegian Cruise Line**, the system links that person to your onboard account. That means they can charge

drinks and excursions to the same credit card. To avoid confusion, you should **Add Guest In Norwegian Cruise Line Dial +1 (833) 624 0944** and discuss payment preferences upfront. Common Mistakes and How to Avoid Them

At that point, manifest files are locked. You cannot **Add Guest In Norwegian Cruise Line** within 24 hours of sailing without paying emergency fees. A fourth mistake is not checking cabin capacity.
